

Battery powered walk-behind sweepers are suitable for indoor and outdoor areas not exceeding about 50,000 sq.

ft.
Cutaway shows the “dustpan” design of this mid-size 60” ride-on sweeper.

Mid-size sweepers are suitable for indoor and outdoor surfaces up to 130,000 sq. ft.

Large sweepers are suitable for outdoor areas that exceed 130,000 sq. ft., and yet they feature good maneuverability for indoor sweeping.

Accessories such as this vacuum wand assist in picking up large debris out of the roadway.
